## **Obsession: Radical Islam's War Against the West**

### **Obsession Overview**

The West faces a shockingly real threat from radical Islam. *Obsession*, a new film produced by Honest Reporting, unveils the depths and dynamics of this raging war, connecting the dots of many world conflicts to show that there is one global front linking them together. *Obsession* then goes further, showing radical Islam's alarming parallels to Nazism. The Nazis also brainwashed their youth to hate, were very serious about their stated militant ambitions to dominate the world, and also chose the Jews as a prime enemy. Both perceived the Jews as the representative of the moral system they stood against - the basic values of Western civilization - freedom, equality, and the sanctity of life.

*Obsession* provides Americans of all backgrounds and persuasions with the facts and historical perspectives needed to help them understand the global conflict with Radical Islam. It counters the biased reporting of the news media and fills in the gaps where even respected news agencies such as the New York Times or CNN fail to fill. *Obsession* explores whether the threat to the West ever end if all that's being taught is hate, and what will happen if the West does not stand up for its own core values in the face of this threat.

Just as happened before WWII, the West is waking up too slowly. *Obsession's* raison d'être is to sound the alarm and inspire a grass roots response to stand up for our cherished values.

### **Obsession: A World Struggle with Morality**

Today, WWII is raging, but few are aware of it.

War has been declared by militant Islam against the West, but much of the West, like Chamberlain did in his time, tends to discount the threat, choosing instead to appease it.

Aside from 9.11, we are today witnessing violent Islamic insurgencies erupting in Indonesia, the Philippines and Thailand. Al-Qaeda linked terrorists took hundreds of hostages at a Moscow theater and a public school in Beslan. There have been subway bombings in Madrid and Paris. Colin Powell has said the situation in Sudan's Darfur region constitutes genocide.

## The Nazi link

The film also explores the surprising parallels between the Islamists and Nazi Germany. Hitler was a clear thinker who knew he was battling over the moral foundations of Western civilization. In his war with the West, he determined he must also focus on and destroy the Jews—the people whom he identified as the source of those sinister Western values. The Holocaust showed how deeply he believed in his ideas. But were Hitler and the Nazis alone in their struggle? Using rarely seen images, *Obsession* shows that the powerful Grand Mufti of Jerusalem, and many other Muslims, stood behind the Nazis in their goal.

And what are the radical Islamists of *today* about? They also express themselves clearly, if only we choose to listen. *Obsession* will help us listen. The Islamists are threatening the basic values of Western civilization. And they also, in going against the West, are aiming at the Jews. Like WWII, the West is waking up very slowly. And, like WWII, Anti-Semitism is growing. The Jews are merely the miner's canary. Western civilization should be concerned.

## Support from the Left

Forces on the left, in the media and academia and the general public—intentionally and inadvertently—promote Islamist claims against Western excesses and intolerance, while overlooking far greater instances in societies they defend. Critics cry out against the humiliation of prisoners at Abu Ghraib, while making no mention of the murderous excesses of Saddam Hussein's regime. A scandal erupts over the alleged flushing of a Quran down a toilet, but little is said of Christian persecution throughout the Muslim world. As a bus is blown up in Jerusalem, Israel is told the 'apartheid' wall limiting these attacks is illegal.

As they reframe the struggle, they help blind the world to the threat before it. *Obsession* educates and challenges audiences on the 'real story'—using well documented source material—enabling enhanced debates and discussions from a more informed perspective. One of the objectives of this movie is to help the public to be insightful of past events and aware of future challenges. Through this, they will also begin to understand what kind of societies the radicals will create if they are successful in their global designs.

## From the Team that Made "*Relentless*"

The new film is being made by the same Producer-Director team who created the acclaimed Honest Reporting film *Relentless: the Struggle for Peace in the Middle East*. Politicians, terrorism experts and academics alike have praised the film and its message.

Natan Sharansky, best-selling author and former Israeli Deputy Prime Minister, wrote, "I strongly recommend the film *Relentless* to all those concerned with peace in the Middle East, as it provides a comprehensive understanding of the critical issues facing Israel and the Western World today. It is a must-see for anyone who cares about a better future for both the Palestinians and the Israelis."

## Obsession includes interviews with:

- Daniel Pipes, Director, Middle East Forum
- Walid Shoebat, Former Palestinian Terrorist
- Alfons Heck, Former Hitler Youth Commander
- Nonie Darwish, Daughter of Egyptian Fedayeen Leader
- Steve Emerson, Terrorism expert, Creator of *Jihad in America*
- John Loftus, Former U.S. Justice Department Prosecutor
- Robert Wistrich, Chair, Sassoon Center for Anti-Semitism

Incorporating rarely seen images and first-hand accounts, *Obsession* reveals a behind-the-scenes look at Islamist politics and culture, and uncovers the cause that is behind the continued struggle between the Islamists and the rest of the world. The film is a product of the efforts of a group of people who couldn't stand by while the world ignores the threat to its values and way of life.

## Obsession Clarifies and Presents Stunning Facts

- Schools throughout the West teach their children about peace and tolerance for people of all different cultures, including Islamic culture. *Obsession* shows that the Islamists are teaching the exact opposite, instilling fear and hatred into their population, via the schools, the mosques, video games, and all other forms of available media.
- The propaganda has spread to the West, and the hatred is being taught in mainstream schools and mosques throughout the U.S. and Europe.

- The Arab hatred of Jewry precedes the creation of the State of Israel. *Obsession* shows that the leader of the Palestinian Arabs lived in Germany during WWII, and worked closely with the Nazis. He met intimately with Hitler on at least one occasion, in which they discussed the destruction of the Jews. There was even a unit of Muslim Nazis—the Handzhars—serving in Europe.
- The insurgencies in Iraq, Indonesia, the Philippines, and elsewhere, are not isolated confrontations, and are much more than the expressions of peoples fighting against foreign aggressors, or striving for self-determination. They are part of a global front that seeks to implement Islamic rule globally.

## We must be concerned

Much of the Western world today would like to believe that we have arrived at an era of heightened moral refinement, or that militant Islam has some legitimate grievances that once solved would bring peace and stability. But militant Islam, the world's fastest growing religion, believes the time has come for its final violent victory over the Crusader infidels of the West. *Obsession* will help people appreciate that freedom itself is at stake today.

An erstwhile peaceful religion has been hijacked by extremists who are seeking to transform our world, with a rate of success that has led one of the world's most prominent Islamic scholars, Bernard Lewis, to say that Europe “will be Islamic by the end of the century” (*Die Welt*). The Jews are merely the miner's canary. Israel is the new Jew. Anti-Semitism is growing; the obsession with the Jews continues...Western civilization should be concerned.

*Relentless*, our first film, has educated over a million people and inspired thousands to be active. We want to accomplish much more with *Obsession*. *Obsession* will hopefully educate millions to stand up for the values they hold dear.
